

I Can Meet with My
Class on the Computer.

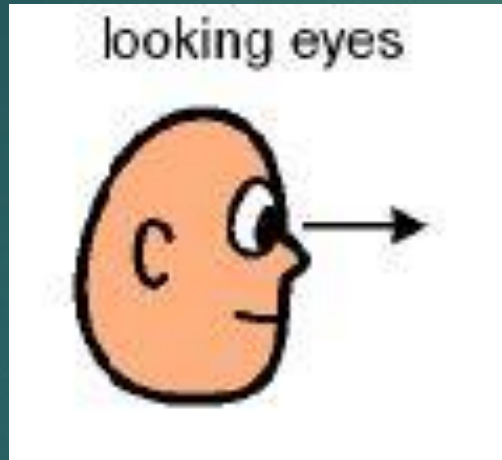

When I meet with my class, I can see my friends and teachers. It is like circle time at school.

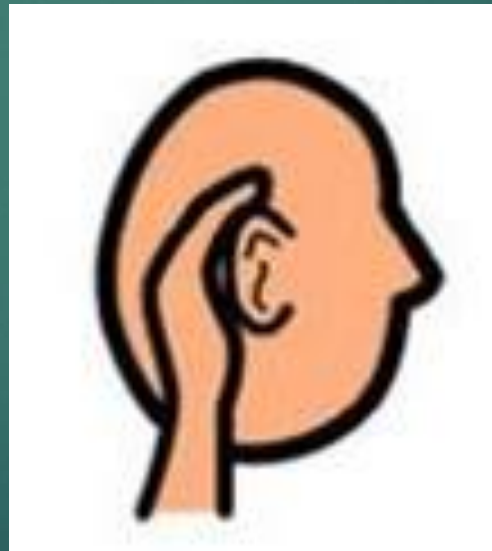

I need to sit in front of my computer so my teacher and friends can see me.

I need to look at the computer to see my friends and teachers.

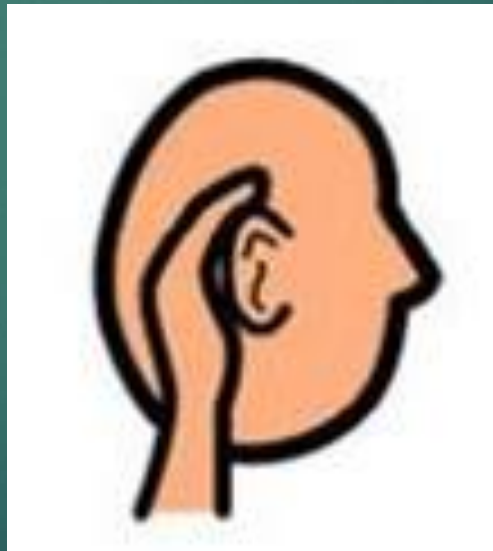

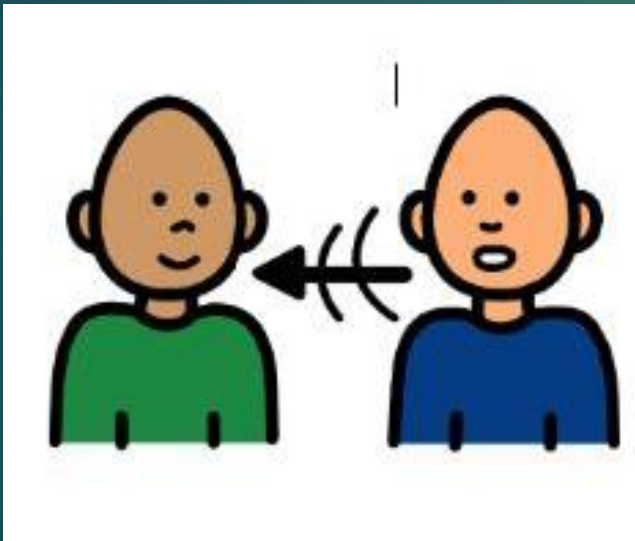

My teachers will talk.
My job is to listen.
I mute my computer when I listen.

My friends will talk.

My job is to listen.

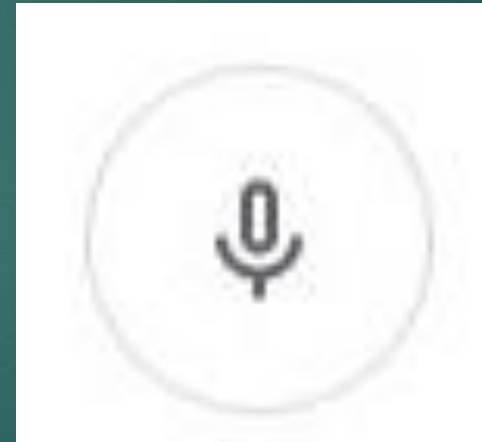

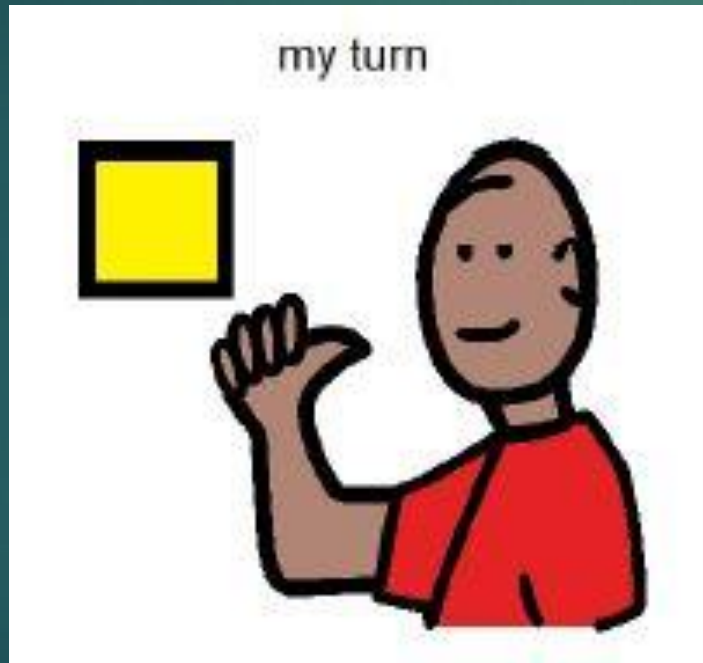

I mute my computer when I listen.

I will get a turn to talk.

My teacher will tell me it's my turn.

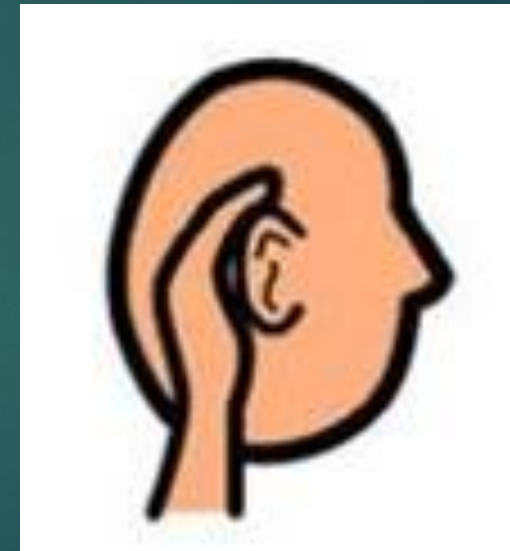

I will unmute my computer to talk.

When I talk, I will sit, look at the computer, and talk.

When my turn is over, I will mute my computer and listen.

It is fun to see my teachers and friends on the computer.

▶ Happy School
Year!!!!!!
