

How I  
Keep It Safe  
at School

I keep it safe when I play at the  
sensory table

I keep the toys inside the table and make  
room for someone to play next to me

I keep it safe when I walk in the  
classroom

I keep my hands down, eyes forward  
and use slow walking feet

I keep it safe when I sit at circle

My eyes are watching, ears listening,  
voice quiet and body calm

I keep it safe when I play

I ask when I want to play and share  
toys when someone asks

I keep it safe when I eat snack

I sit with both feet on the floor and  
take small bites

I keep it safe when I wash hands

I wait my turn in line then follow the directions on the poster

I keep it safe when I play outside

I go down the slide feet first

We have fun at school when we  
keep it safe
